

Hotplate H 30/30

Heater for big vessels

- anodized aluminium hotplate: square 300x300 mm, 2000 watt
- continuously adjustable temperature: 40-350 °C

The aluminium hotplate features a precise temperature control.

The surface of the hotplate will remain a flat even after many thermal shocks this means there is optimum contact between hotplate and vessel to guarantee for an even heating of the liquid.

Part No.	60226-10 (230 V AC)
Plate Size	300 x 300 mm
Material	Aluminium, anodised
max. load of the hot plate	20 kg
Heating Power	2000 Watt
Temperature Range	40 – 350 °C
Dimensions (WxDxH)	310 x 315 x 145 mm
Weight	7,6 kg
Conditions of surroundings	
Admissible temp. of surrounding	+ 5°C up to + 40°C max. 80 % relative humidity
Permissible ON time	100%
